

American Roulette

Rules and game play

Are you looking for a quick, simple game with plenty of winning options?

Start the game by placing your bets. The croupier spins the wheel and throws in the ball in the opposite direction – the game begins! You can bet on your lucky numbers until the croupier says "No more bets". When the wheel slows down and the ball falls into a pocket, the croupier announces the winning number. They then remove all losing bets from the table and pay out the winners. The croupier will then again call "Place your bets!" and you can try your luck once more!

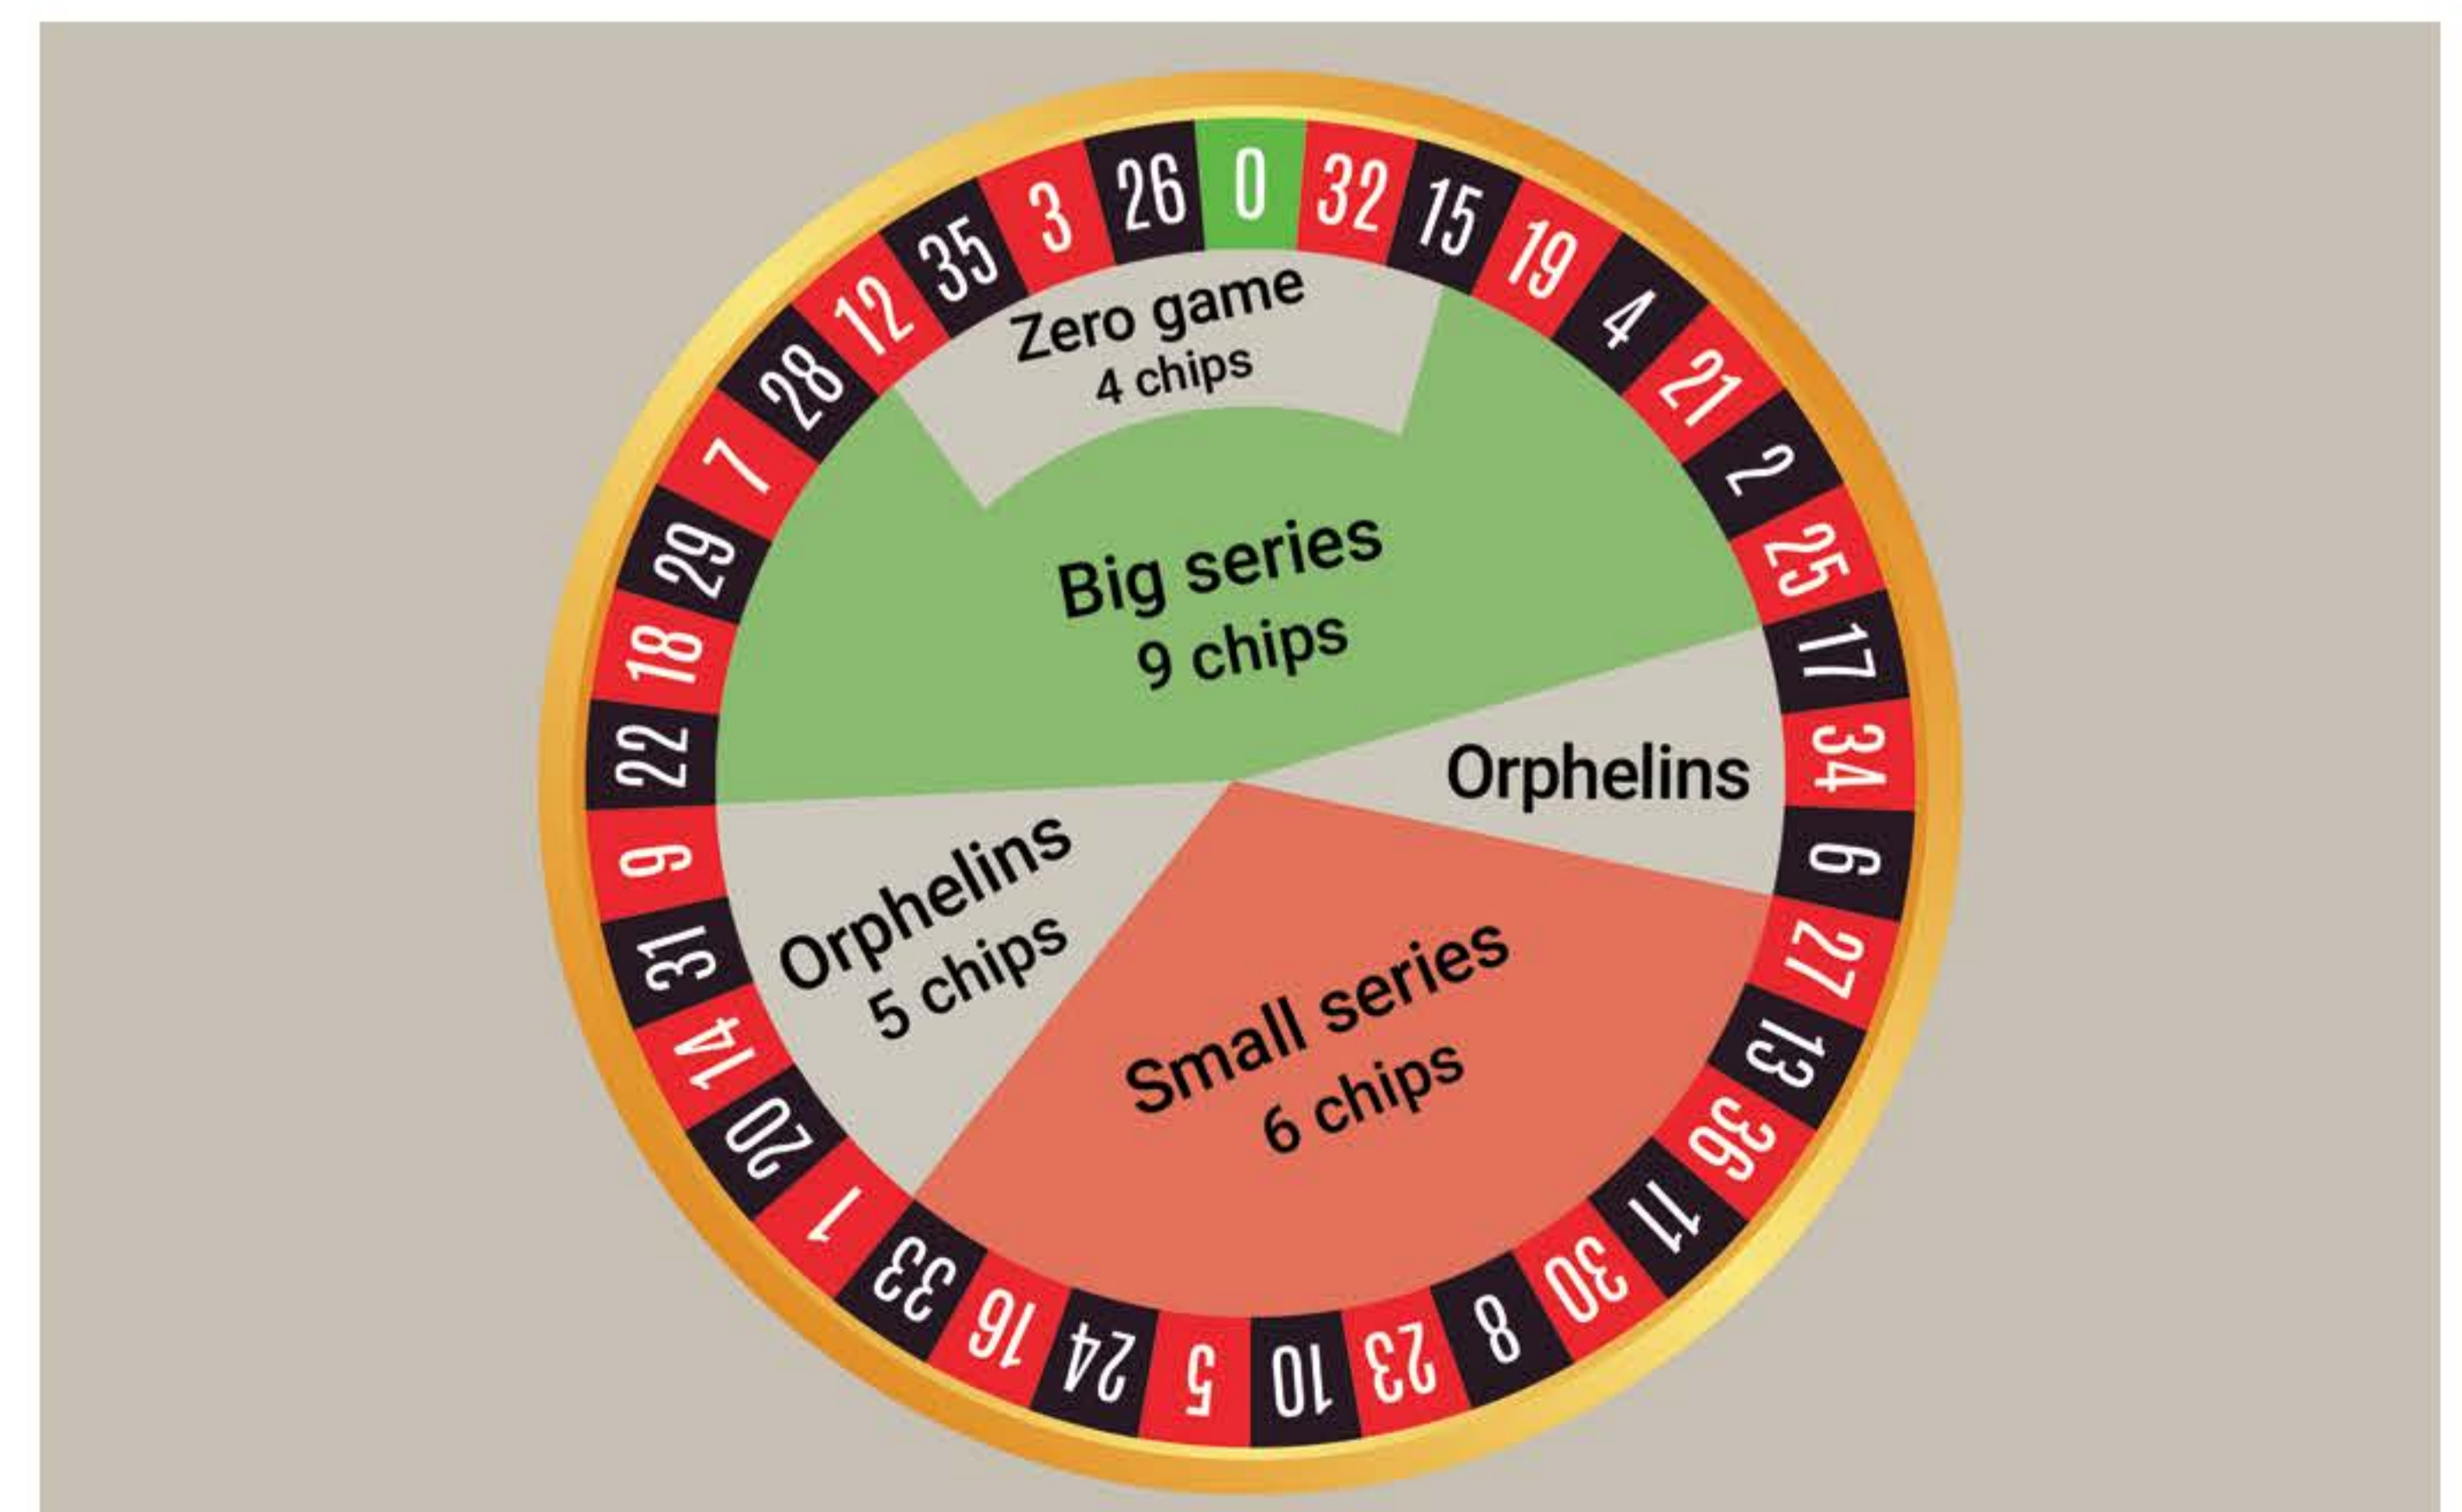

Bets and payouts

Even-money bets (red / black, odd / even, 1 -18 / 19-36)	1:1

Series

If you are looking for a combination of betting options, try a series bet! Series divide the roulette wheel into several segments of adjacent numbers. These give you the possibility of covering a larger area of numbers with a smaller stake.
